CLASS IS ALWAYS IN SESSION FOR IOWA'S ELECTRIC COOPERATIVES

BY KATRINA DAVIS

When the lockers are empty and the final school bell rings, summer announces a well-earned break from homework and schedules.

While classrooms may quiet down, learning doesn't take a season off in the world of electric cooperatives.

At the Iowa Association of Electric Cooperatives, we see education not as an obligation, but as an investment that pays dividends in reliability, innovation and service to co-op member-consumers. The electric utility landscape is constantly evolving, shaped by new technologies, changing regulations and growing expectations from the communities we serve. Staying ahead requires more than experience; it demands a commitment to continuous learning.

That's where our training and education programs come in. As the director of education and training at the statewide trade association, my role is to provide high-value learning opportunities for our member electric cooperatives.

Investing in employees and directors

Throughout the year, we bring co-op employees together for workshops, conferences and hands-on training opportunities designed to sharpen skills and spark new ideas. Whether it's a lineworker mastering the latest safety practices, a customer service representative navigating emerging member needs or a manager exploring new operational strategies, each session builds confidence and capability.

But learning doesn't stop with employees.

Cooperative board directors, who are locally elected member-consumers, also dedicate time to expanding their knowledge. Through director-focused events, they dive deeper into the complexities of the energy industry, from governance responsibilities to emerging policy issues. Just as importantly, these gatherings create a space for connection. Directors from across the state share perspectives, challenges and solutions, strengthening not only their individual co-ops but the cooperative network as a whole.

Continuous commitment

There's something fitting about this work continuing through the summer months. While students may take a break, co-op leaders and employees are leaning in by asking questions, exchanging ideas and preparing for what's ahead. It's a reminder that learning isn't confined

to a classroom or a calendar. It's a mindset. And that mindset matters.

Because when cooperative teams are well trained and well informed, they're better equipped to serve you. They make smarter decisions, respond more effectively to challenges and help ensure your co-op remains strong for generations to come.

As you enjoy the pace of summer with longer days, family time and a bit of rest, know that behind the scenes your electric cooperative is still doing its homework. And Iowa's electric co-ops invest in education and training because we believe in the power of knowledge to build a brighter future.

After all, in the cooperative world, learning is always in season.

Katrina Davis is the director of education and training for the Iowa Association of Electric Cooperatives.

EDITOR'S CHOICE CONTEST

WIN A CHARBROIL BISTRO PRO TABLETOP GRILL!

Grill like a pro – even in tight spaces! The Charbroil® Bistro Pro™ tabletop electric grill heats up to 500 degrees F fast, delivering deliciously seared flavors. Its 180-square-inch cooking area makes it ideal for small patios or on-the-go cookouts. Enjoy easy, electric-powered grilling with convenience.

Visit our website and win!

Enter this month's contest by visiting www.ieclmagazine.com no later than June 30. You must be a member of one of Iowa's electric cooperatives to win. There's no obligation associated with entering, we don't share entrant information with anyone and multiple entries from the same account will be disqualified.

The winner of the \$100 Spring Spruce Up gift card from the April issue was **John Hoffman**, a **Raccoon Valley Electric Cooperative** member-consumer.

WHY INFRASTRUCTURE INVESTMENTS MATTER

BY BRIDGET ITZEN

This month, we continue our series on “Understanding Your Electric Rates” by taking a closer look at something that plays a major role in what you pay each month: infrastructure investment.

Simply put, delivering safe, reliable electricity across our service territory depends on the strength of the system behind it. That system – power lines, poles, substations, and equipment – requires ongoing maintenance and, just as importantly, timely upgrades.

Aging equipment

Much of the electric grid serving our communities was built decades ago. While our crews work hard to maintain it, equipment doesn't last forever. Poles weaken, wires wear down, and substations eventually reach the end of their useful life. Replacing aging infrastructure before it fails helps us prevent outages rather than simply reacting to them. It's a proactive approach that saves time, reduces long-term costs, and improves reliability for everyone.

Serving a diverse service territory

Our service territory includes a mix of rural and more developed areas, and each brings unique infrastructure challenges. In our rural communities, we maintain long stretches of line over wide geographic areas, often serving fewer members per mile. In more populated areas, we manage higher energy demand, more complex system needs, and limited space for equipment. Balancing these different demands requires thoughtful planning and ongoing investment to ensure every member receives safe, reliable power – no matter where they live, work, or do business.

Growth in our communities

We're proud to see growth across our service territory. New homes, farms,

and businesses are a sign of strong communities – but they also place new demands on our electric system. Growth often requires expanding lines, upgrading substations, and increasing system capacity to meet higher energy needs. Investing ahead of that growth ensures we can continue delivering power without interruptions as our communities evolve.

Reliability and safety first

At the core of every infrastructure decision is a commitment to reliability and safety. Our members depend on electricity for daily life – from keeping homes comfortable to powering essential services. Investments in new poles, modern equipment, and advanced technology help reduce outages, shorten restoration times, and protect both the public and our employees. A resilient system isn't just convenient – it's critical.

Meeting DOT and regulatory requirements

Some projects are not optional. Department of Transportation (DOT) projects – such as road expansions or improvements – often require us to relocate or upgrade electric lines and equipment. These mandated projects ensure public safety and support broader community infrastructure, but they also come with costs that must be incorporated into our system planning and rates.

Infrastructure investment isn't about spending for today – it's about preparing for tomorrow. Every dollar we invest is carefully considered to balance affordability with the need for a safe, reliable, and future-ready electric system.

As your cooperative, our goal is to serve you not just today, but for generations to come. Thank you for your trust as we continue building a stronger system for all.

Bridget Itzen is the CEO/General Manager of Consumers Energy.

DEVELOPING A SLATE OF CANDIDATES FOR ELECTION OF DIRECTORS AND POST NOMINATIONS

This year's Nominating Committee members are Doug Anderson, Merrell Kilborn, Mona Kilborn, Becky McKibben, Loyd Nelson, Autumn Ogden, Carman Rosburg, Lee Tesdell, and Russ Yarrow. The Nominating Committee is comprised of 5 to 11 cooperative members that are appointed by the board of directors and charged with the responsibility of selecting members for director candidate positions annually.

The committee met on April 20 to develop a slate of candidates to run for Consumers Energy's board of directors. The election of three directors will be held in conjunction with the Annual Business Meeting on Monday, Aug. 10, at 5 p.m.

In June, the Nominating Committee will finalize the ballot for the director election and post its list of nominations for director candidates at Consumers Energy by June 26. Cooperative members can petition candidates on the ballot as stated in the cooperative's bylaws as follows:

The committee shall prepare and post at the principal office of the Cooperative at least forty-five (45) days before

the meeting a list of nominations for directors.

Such nominations shall be made by districts as herein prescribed to succeed the directors whose terms will expire at the meeting of members for which such nominations are made, and the members so nominated shall be bona fide residents of the district from which they are nominated and meet all other qualification requirements as set forth herein. Any fifty (50) or more members may make other nominations in writing over their signatures not less than thirty-five (35) days prior to the meeting at which directors are to be elected, and the secretary shall post the same at the same place where the list of nominations made by the committee is posted; such nominations so made by such members to be subject to the same qualifications, district, and residence requirements as nominations by the nominating committee heretofore prescribed.

Each co-op member will receive information on the director candidates in the July newsletter. The Annual Business Meeting

Pictured from left: Chairperson Lee Tesdell, Russ Yarrow, Becky McKibben, Carman Rosburg, Autumn Ogden, Loyd Nelson, Vice Chairperson Mona Kilborn, Merrell Kilborn, and Doug Anderson.

notice and ballot will be mailed to members in mid-July.

This Nominating Committee will serve as the Election & Credentials Committee for the 2026 Election of Directors held in conjunction with the Annual Business Meeting. The committee appointed Lee Tesdell as chairperson and Mona Kilborn as vice chairperson. Sincere gratitude is extended to these committee members for their dedicated service to Consumers Energy and its membership.

If you have any questions about the Annual Business Meeting or the election process, contact the cooperative by phone at 800-696-6552 or by email at admin@consumersenergy.coop.

Father's Day Brain Teasers

SHINE THE LIGHT ON LOCAL VOLUNTEERS

NOMINATE A COMMUNITY VOLUNTEER BY JUNE 30

Three winners will each receive \$3,000 for their chosen charity or nonprofit

The Shine the Light contest is celebrating its sixth year of recognizing volunteers who make a lasting difference in communities across Iowa. Sponsored by the Touchstone Energy® Cooperatives of Iowa, the statewide contest highlights individuals whose dedication, compassion and leadership strengthen local nonprofits, charities and community organizations.

Each June, member-consumers and employees of Iowa's electric cooperatives are invited to nominate outstanding

local volunteers through the contest website. Again this year, three winners will be selected and each will receive a \$3,000 donation for their chosen charity or nonprofit organization. Nominations are open June 1-30 to volunteers of all ages, and past nominees who did not win may be nominated again. Entries require a short explanation of how the nominee has made a positive impact in the community.

As the Shine the Light contest enters its sixth year, here's a look back at the winners and charities recognized during the past five years.

2021

Suzanne Askelsen | Ballard Education Foundation

Suzanne Askelsen of Cambridge was nominated by her mother, Carol Gilbert, a Midland Power Cooperative member. Suzanne was recognized for her work with the Ballard Education Foundation, serving on the steering committee and as the first president for four years. She helped identify sponsors and lead fundraising efforts while balancing life as a mother of six.

Marlene Walthart | Emmet County Animal Shelter

Marlene Walthart of Estherville was nominated by Dawn Eveleth, a member of Iowa Lakes Electric Cooperative, for her work with the Emmet County Animal Shelter. Alongside her husband Larry, she has volunteered at the shelter for years and helped establish a nearby can redemption center to raise money for the facility.

Dr. George North | Wilder Park

George North of Allison was nominated by Deb McWhirter, a Butler County Rural Electric Cooperative member, for his work with Wilder Park. A retired dentist and longtime scout leader, George helped develop Wilder Park to provide affordable outdoor recreation opportunities in Butler County.

Deb Johnson | Greater Fairfield Area Habitat for Humanity

Deb Johnson of Fairfield was nominated by Kathy Brown, a member-consumer of Access Energy Cooperative. An active volunteer, Deb uses her social work background to serve as a family support liaison for Greater Fairfield Area Habitat for Humanity. She is also known as the "Cookie Lady" for baking treats for student workers during home builds.

Sharon Van Beek | Buckets of Joy

Sharon Van Beek of Primghar was nominated by her daughter, Laura Leonard, a member-consumer of North West Rural Electric Cooperative. Sharon has coordinated holiday gifts for children in need for 30 years, continuing a tradition started by her in-laws. Buckets of Joy now distributes up to 250 bags each Christmas filled with clothing, books, snacks and other essentials.

Nicole Low | Eldora Community Garden

Nicole Low of Eldora was nominated by Midland Power Cooperative member Paul Lawler. Nicole co-founded the Eldora Community Garden to build community and provide fresh produce for people in need. A registered nurse and mother of two, she is passionate about public health and reducing food insecurity.

2022

Erica Lindaman | Gift of Giving

Erica Lindaman of Clarion was nominated by members and employees of Prairie Energy Cooperative. A fourth-grade teacher, Erica became involved with Gift of Giving during the pandemic to help provide holiday gifts for children. She now helps coordinate assistance for families needing clothing, food and household items throughout Wright County.

Betty Thronson | Project Flo

Betty Thronson of New Hampton was nominated by her sister, Shirley Hoffman, a member of Butler County Rural Electric Cooperative. Betty and her siblings started Project Flo in 2011 to honor their mother, Florence "Flo" Thronson. Each summer, volunteers repair homes throughout Chickasaw County, with Betty coordinating projects and work teams.

Heather Weers | Sleep in Heavenly Peace

Heather Weers of Center Junction was nominated by Megan Ruley, a member and employee of Maquoketa Valley Electric Cooperative. Heather founded the Jones County chapter of Sleep in Heavenly Peace in 2019 and has helped deliver more than 320 beds so children don't have to sleep on the floor.

2023

2024

Judy Hess | Moms and Grandmas for Fonda Inc.

Judy Hess of Fonda was nominated by Kerry Noethe, a member-consumer of Calhoun County Electric Cooperative Association. Judy was recognized for her work with MAGS 4 Fonda, a group focused on improving parks and the local pool. Since starting the organization in 2018, she has led creative fundraising efforts for local projects.

Doug Pralle | Compassion Flights

Doug Pralle of Hampton was nominated by Madison Alert, an employee of Franklin Rural Electric Cooperative. Doug founded Compassion Flights in 2017 to arrange free air transportation for medical treatment. Inspired by kindness shown to his family during his father's illness, he now works to provide that same support to others.

Beth Thole | Osceola County Agriculture Pavilion

Beth Thole of Sibley was nominated by Gary and Karen Trei, member-consumers of Osceola Electric Cooperative. As a board member of the McCallum Museum, Beth has helped raise funds and preserve agricultural history through the Osceola County Ag Pavilion, which features a farmhouse, barn and historical artifacts.

Chuck Bildstein | Chelsey's Dream Foundation

Chuck Bildstein of Anamosa was nominated by Al Reiter of Maquoketa Valley Electric Cooperative. Chuck founded Chelsey's Dream Foundation in memory of his daughter Chelsey to help families with adoption expenses and emotional support. Since 2014, the organization has helped more than 100 families adopt 141 children.

Gerry Holtrup | Partners for Patriots

Gerry Holtrup of Hospers was nominated by Molli Griffin, a member-consumer of North West Rural Electric Cooperative. Gerry was recognized for his work with Partners for Patriots, an organization that trains service dogs for disabled veterans. He leads fundraising and outreach efforts and also helps train and place service dogs.

Aimee Goeman McKnight | Build a Better Belmond

Aimee Goeman of Belmond was nominated by four member-consumers of Prairie Energy Cooperative. Aimee returned to her hometown in 2020 and became a leader in efforts to rebuild Belmond's community swimming pool. Through Build a Better Belmond, she is helping raise funds to restore the pool as a key community gathering place.

2025

Visit www.IowaShineTheLight.com to review the contest rules and submission guidelines.

Contest entries will be accepted at this website June 1-30.

Scan the QR code to watch videos featuring each of the winners.

SMOKED BBQ MAC AND CHEESE

- 1 large bag elbow macaroni
- 1 block Velveeta cheese
- 1 stick butter, cubed
- 1 quart milk
- 1 cup heavy whipping cream
- 3 tablespoons barbeque seasoning
- 1 cup mozzarella cheese, shredded
- 2-3 cups Cheez-Its, crushed
- cooking spray

Heat smoker to 275 degrees F. Pour dry macaroni into a 9x13-inch baking dish and place Velveeta in the center of the dish. Spread butter cubes around cheese then pour in milk, heavy cream and barbeque seasoning. Spread shredded cheese over the top evenly. Cover and smoke for 2 hours, then stir well. Sprinkle crushed crackers on top and spray lightly with cooking spray. Sprinkle a dash of barbeque seasoning over the crackers, then return to smoker for 25 minutes. *Serves 6-8*

Chloe Palmer • Lovilia
Chariton Valley Electric Cooperative, Inc.

CORN CASSEROLE

- 1 stick butter
- 1 can corn, undrained
- 1 can cream of corn, undrained
- 1 egg, beaten
- ¼ cup onion, chopped
- 1 8-ounce carton chive chip dip
- 2 cups cheddar cheese
- 1 box Jiffy corn bread mix

Melt butter and add both cans of corn, egg, onion, chip dip and cheese. Mix in corn bread mix. Pour into a greased 9x15-inch pan. Bake at 350 degrees F for 1 hour. *Serves 10*

Karen Caldwell • Albia
Chariton Valley Electric Cooperative, Inc.

RANCH COLESLAW

- 4 cups cabbage, shredded
- ½ cup Mexican-style corn, drained
- 1 jalapeño pepper, diced
- 3 tablespoons onion, chopped
- ½ cup cheddar cheese
- ¾ cup ranch dressing
- 2 teaspoons lime juice
- ½ teaspoon cumin
- ½ teaspoon celery seed
- salt, to taste
- pepper, to taste

Mix all ingredients together. *Serves 6*

Amy Behounek • Chelsea
T.I.P. Rural Electric Cooperative

MOLASSES GRILLED PORK TENDERLOIN

- ½ cup molasses
- ¼ cup coarse grain Dijon mustard
- 2 tablespoons apple cider vinegar
- 1 teaspoon seasoned salt
- 1 3-pound pork tenderloin

Combine molasses, mustard, vinegar and seasoned salt, adjust salt to taste. You can also use honey Dijon mustard. Place pork tenderloin on grill over medium-hot coals (splitting the tenderloin in half makes it easier to grill and will cook faster). Cover with grill lid and cook until almost done, meat will be a little pink when cooked on the grill. Brush molasses sauce on pork and cover with lid. Cook until the thickest part of the tenderloin reaches an internal temperature of 160 degrees F, turning once and basting with the reserved molasses. You can double the sauce ingredients to make a dipping sauce. Warm the dipping sauce in the microwave before serving. *Serves 8*

Dianne Roeder • Maurice
North West Rural Electric Cooperative

GRILLED STRAWBERRY SHORTCAKE KEBABS

- 8 wooden skewers
- 1 loaf shortcake
- 1 1-pound package strawberries
- whipped cream or ice cream

Soak the wooden skewers in water for at least 2 hours to prevent them from burning on the grill. Cut the cake into 2-inch cubes. Sponge cake or angel food cake can also be used. Wash strawberries and remove the hull. Thread alternating strawberries and cake on each wooden skewer. Place kebabs on the grill and cook for 5 minutes, rotating during cooking. They are done when the cake is toasted. Serve with whipped cream or ice cream.

Marilyn O'Brien • Geneva
Franklin Rural Electric Cooperative

BBQ BITES

- 16 ounces boneless, skinless chicken breasts, diced
- 2 tablespoons corn oil
- 1 large onion, chopped
- salt, to taste
- pepper, to taste
- $\frac{3}{4}$ cup sweet barbeque sauce
- $\frac{3}{4}$ cup Dijon mustard
- 40 corn chip cups
- sour cream

In a large skillet over high heat, cook chicken in corn oil until done. Add onion and cook 2 minutes more, or until onion is golden brown. Season with salt and pepper. Add barbeque sauce and mustard. Cook until heated through, stirring occasionally. Divide barbeque chicken mixture into the corn chip cups. Add a dollop of sour cream to each cup.

Deb Bartholomew • Ollie
T.I.P. Rural Electric Cooperative

CREAMY BLACK BEAN DIP

- 1 can black beans
- 1 can corn
- $\frac{1}{2}$ cup sour cream
- $\frac{1}{4}$ cup mayonnaise
- 2 tablespoons vinegar
- 1 teaspoon cumin
- 1 teaspoon chili powder
- $\frac{1}{8}$ teaspoon pepper
- $\frac{1}{4}$ teaspoon garlic powder
- $\frac{1}{2}$ teaspoon salt
- 1 cup red pepper, chopped
- $\frac{3}{4}$ cup green pepper, chopped
- $\frac{1}{2}$ cup red onion, chopped
- chips

Rinse and drain black beans and corn. In a medium bowl, combine sour cream, mayonnaise, vinegar, cumin, chili powder, pepper, garlic powder and salt. Add the beans, corn, peppers and onion. Stir and serve with chips. Serves 8-10

Grant DeSmet • Larchwood
Lyon Rural Electric Cooperative

CORN SALAD

- 2 cans yellow kernel corn, drained
- $\frac{1}{2}$ red pepper, chopped
- $\frac{1}{2}$ green pepper, chopped
- $\frac{1}{2}$ red onion, chopped
- 1 cup mayonnaise
- 1 cup cheddar cheese, shredded
- 1 5-ounce package chili cheese flavored corn chips

Mix all ingredients except chips. Chill mixture. Stir chips in just before serving. Serves 10-12

Joanna Schaefer • Larchwood
Lyon Rural Electric Cooperative

BAR-B-Q BEEF BURGERS

- 1 pound ground beef
- $\frac{1}{4}$ cup barbeque sauce, more to taste
- 2 teaspoons prepared mustard
- 1 tablespoon sautéed onion
- buns

Mix ingredients except buns together and form into patties. Grill burgers until done. Toast buns on the grill for the last couple of minutes.

Susan Ausborn • Ventura
Prairie Energy Cooperative

EV SALES SLOW, BUT CO-OPS POWER FORWARD FOR MEMBERS

BY CATHY CASH

Headlines may say that electric vehicle (EV) sales have taken a significant spill, but electric cooperatives and their members have nothing to worry about here.

It's in co-ops' DNA to be strategic and flexible – balancing shifts in energy demand while upholding the seven cooperative principles that prioritize affordable, reliable and safe electricity. That same adaptability applies to the recent downturn in EV purchases, which energy analysts still expect to surge in the long term.

“Co-ops have internal processes and plans for what really does show up as load versus what's in the headlines,” said Jennah Denney, the National Rural Electric Cooperative Association's senior program manager for technology integration.

She sees no adverse impacts, just because EV sales dropped by half between last September and December, according to industry data.

“If an electric co-op is serving EVs today, those EVs still have

to charge and the co-op's still serving them,” Denney said.

Variety of benefits remain

The benefits of EV ownership remain strong, and co-ops play an important role.

Although the federal tax credit for EV purchases has sunset, many co-ops and states are offering discounts, rebates or other financial incentives. EV drivers also can take advantage of lower rates from their co-op when charging their

vehicles at home or elsewhere at times that don't stress the grid.

Charging stations owned and operated by co-ops have become valuable assets in supporting grid reliability and the communities they serve. Having available and convenient charging stations is considered a real amenity in small towns and suburbs.

Owners of EVs with a bidirectional capacity battery can tap their vehicle like a generator to deliver backup power to their home in case of a power outage. EVs have also been used to power outdoor community events sponsored by co-ops.

Fuel savings, pre-owned options

Then there's fuel economy and the low maintenance of EV motors.

Fully charged EV batteries provide about 300 miles of driving nowadays, easing past "range anxiety" for drivers switching from cars and pickups that run on gasoline. That means longer drives with fewer fueling stops and no worries about the escalating price at the pump.

"Many people don't realize until they're an EV driver how nice it is to not go into a gas station," said Denney.

A lot of EV models carry higher upfront costs, but the lower-priced, pre-owned vehicle market is growing and more of these vehicles can be found in co-op service territories.

For co-ops with EVs on their lines or if you're a member who owns an EV, it's a great time to contribute to an affordable and reliable grid.

"You have so many ways to benefit from an electric vehicle that you may not have had before," said Denney. "The benefits to owning an EV, that's one thing that hasn't changed despite all of the sales hype."

Long-term vision for electrification

Co-ops across the country with EV load are partnering with local government and business and community leaders to install chargers in prominent places in their electric footprint, such as county buildings, community centers, large restaurants, shopping areas, museums and more.

"EV drivers want confidence about where they will be able to charge,

and some co-ops realize that these communities would be left behind if they didn't install EV chargers," Denney said. "Our mission as co-ops is concern for community, improving the communities we serve. So, if there's somewhere that brings families together, that's also an opportunity to provide EV chargers."

Plus, electric transportation is projected to make up the second largest tranche of electrification between now and 2050, according to the Electric Power Research Institute.

While we don't have a crystal ball, Denney noted co-ops' success comes from being stalwart and loyal to their members, their communities and their load – and that includes EVs.

"Electric co-ops are showing up to serve growing needs in our territories, and that means using scenario process improvements to plan for what comes next," Denney said. "We've seen a lot of fluctuations, and it will be a story that continues to evolve."

Cathy Cash writes on consumer and cooperative affairs for the National Rural Electric Cooperative Association.

FINAL CALL: TREE PROGRAM SURVEY CLOSES SOON

Thank you to everyone who has shared their feedback on our potential tree program! We're still gathering input as we explore offering a tree sapling giveaway or discounted sapling purchase opportunity for our members.

If you haven't had a chance yet, there's still time – but not much! Please take a few minutes to complete our short survey by June 30. Your input will help us determine interest levels and shape a program that best serves our membership.

Scan the QR code or visit www.consumersenergy.coop/tree-program-survey.

We appreciate your time and feedback!

Nominate a local volunteer and they could win \$3,000 for their charity!

Contest entries accepted during June at IowaShineTheLight.com

See Pages 6-7 for more details.

ANNUAL AUDIT OF CO-OP FINANCIALS COMPLETE

In March, Eide Bailly LLP completed the annual audit of the balance sheet of Consumers Energy Cooperative and Subsidiary as of Dec. 31, 2025, and 2024, and the related statements of operations, member patronage capital credits, and other equities and cash flows for the years then ended. The audits were conducted according to the generally accepted auditing standards.

An audit facilitates improved processes and controls, addresses regulatory or other compliance issues, and ensures processes are efficient as well as providing reasonable assurance the financial statements are presented

fairly and are free of material misstatement. Eide Bailly LLP's Kellen Garrison, CPA, Partner, presented a clean opinion to the board of directors at the April board meeting, stating that the financial statements are in conformity with generally accepted accounting principles. The financial statements for Consumers Energy will be presented to the membership at the Annual Business Meeting on Monday, Aug. 10.

LANE JOHNSON RECEIVES JOURNEYMAN LINEMAN CERTIFICATION

Consumers Energy employee Lane Johnson received his Journeyman Lineman certification in March. Journeyman Lineman status is achieved once an electric utility employee has completed apprenticeship training and learned the trade for working on power lines. Consumers Energy employees helped Lane celebrate with ice cream during the employee safety meeting in April.

Congratulations, Lane!

WAYS TO PAY YOUR CONSUMERS ENERGY BILL

SmartHub app

In-person at headquarters location

By mail

Automatic monthly payments

By phone 24/7 855-939-3832

By drop box Allow 2-3 business days for payments to reach headquarters.

CONSUMERS ENERGY SCHOLARSHIP RECIPIENTS

Consumers Energy is proud to offer scholarships to central Iowa students. The cooperative gives \$1,000 scholarships based on scholastic achievement, school and community involvement, work history, and references.

This year, Consumers Energy awarded 10 scholarships – one lineworker scholarship, available to any student in the state of Iowa, and nine general academic scholarships available to members' children. Congratulations to our winners!

Lineworker Scholarship

Dylan Flannery
Alburnett High School

Academic Scholarships

Emmarie Becker
Ankeny Centennial High School

Alexa Betting
Nevada High School

Eli Dee
Baxter High School

Julia Mortvedt
Ames High School

John Nelson
Nevada High School

Hunter Polley
West Marshall High School

Izabelle Shields-Brommel
Ballard High School

Luke Steward
Homeschooled

McKenna Welch
Ankeny Centennial High School

LOW- TO NO-COST WAYS TO SAVE ENERGY

BY MIRANDA BOUTELLE

Saving energy doesn't have to be expensive or time-consuming. You don't need to spend thousands of dollars or get the newest technology to use less energy. There are several steps to lower energy use, even on a tight budget.

Here are some low- and no-cost ways to save energy around your home.

Change thermostat settings.

Adjusting the thermostat is an easy way to save. Nudge the thermostat a few degrees closer to the outside temperature, especially on extreme weather days. On the hottest and coldest days, your heating and cooling equipment must work much harder and use more energy to maintain the same temperature. Add an extra layer of clothing or cozy slippers in winter, and lighter layers in summer.

Address water leaks. Fix any hot water leaks or dripping faucets. Those tiny drips can add up to big energy waste, not to mention water waste. If you need to hire a pro to fix it, turn the shutoff valve under the sink to stop the leak until you can get it fixed.

Choose cold water. Wash clothes in cold water to avoid using the energy required to heat it. Washing on hot or warm settings can really add up, especially if you have a top-load or older washing machine that uses more water.

Adjust water heater settings.

Adjusting the temperature on your water heater can save energy and money, too. Depending on the water heater, this is either an easy adjustment or something a little more complicated that requires removing access panels. If you don't know how, consult a professional.

Fill air leaks. Air sealing is a do-it-yourself, beginner-friendly project that improves comfort and reduces energy waste. For around \$20 and a couple of hours of time, you can fill

Weatherstripping helps seal drafts around exterior doors, which saves energy and improves comfort in your home.

Spray foam seals gaps around pipes to prevent cold air from traveling up through those spaces, causing drafts and wasting energy.

Do-it-yourself, beginner-friendly projects, such as weatherstripping around doors, help lower energy use at home.

gaps, cracks and holes to prevent air from leaking in and out of the home. From the inside of the home, seal the trim around windows and exterior doors with caulk for about \$4 per tube. Buy paintable caulk so you can touch it up when it dries, if needed.

A can of spray foam is about \$5 and seals gaps around plumbing lines. It's great for sealing gaps around pipes under sinks and in the crawlspace or basement. Cold air can travel up through those spaces, causing drafts and wasting energy. Air-sealing these areas earns bonus points for preventing insects and rodents from using these gaps to enter your home.

Spray foam is messy and nearly impossible to remove from whatever it touches, so wear disposable gloves and clothes you don't mind getting dirty, and use drop cloths to protect finished floors. Be careful if you're

working with spray foam overhead. If it gets in your hair, it's not coming out with anything less than a haircut. Move any items and clean surfaces of dust and debris in areas you intend to seal before cracking open a can. Put the can in a cardboard box to carry throughout the house so you don't leave a trail of spray foam.

Seal exterior doors. For \$10 to \$15, you can buy weatherstripping to improve the seal on exterior doors. If you can see light around doors or feel a draft between the door and the door jamb when the door is closed, weatherstripping will help.

Try these easy, low- and no-cost improvements to reduce energy waste and improve comfort in your home.

Miranda Boutelle writes on energy efficiency topics for the National Rural Electric Cooperative Association.

PRESSURE IS A PRIVILEGE

BY DARCY DOUGHERTY MAULSBY

What do you dream of? A new car? A bigger house? A grand vacation?

Beth (Schleisman) Montalvo dreamed of competing in the Olympics. She represented Team USA during the 2008 Paralympic Games in Beijing, China, as her parents, Larry and Violet Schleisman of Lake City, cheered her on from the stands.

As a non-athlete, I'm intrigued to learn how world-class champions like Beth think. She introduced me to a quote from Billie Jean King, one of the greatest tennis players of all time: "Pressure is a privilege."

Beth knows a lot about pressure. Her ability to harness this intensity is a big reason why the United States Tennis Association Hawaii Pacific Section's Hall of Fame presented Beth (a long-time Maui resident) with the Outstanding Player Award in November 2025.

"I felt alive again"

Long before this prestigious award, Beth was a farm girl from west-central Iowa who enjoyed cheerleading, track and water skiing. She spent her summers working as a lifeguard at the Lake City swimming pool. She also worked part-time as a certified nursing assistant (CNA) at the local care center.

"I learned a strong work ethic, dedication and honoring your word," said Beth, whose father would take her to work on a snowmobile if a winter storm blocked the roads.

After graduating from Iowa State University, Beth became a math teacher. Then came March 30, 1991.

Beth, her boyfriend and other friends were riding four-wheelers in the sand dunes near Las Vegas. Something went horribly wrong, and Beth's four-wheeler pitched forward. "I hung on and felt my back snap," she recalled.

Beth (Schleisman) Montalvo, who received the United States Tennis Association's Hawaii Pacific Hall of Fame Outstanding Player Award, is shown here with Executive Director Ron Romano in 2025.

Beth, 25, spent nearly five years trying to re-learn how to walk. While she eventually realized she could get around quicker in a wheelchair, she had no interest in wheelchair sports. "In my mind, playing wheelchair sports was admitting that I was going to stay in a wheelchair the rest of my life," she said.

That changed when another "wheelie," named Billie Eddins, came to the Las Vegas school where Beth worked, teaching adaptive physical education. He convinced Beth to try wheelchair tennis. "I fell in love with the freedom of moving around on the court," she said. "I felt alive again."

The player who serves well seldom loses

While the birth of Beth's son, Jacques, in December 1996 put tennis on hold, the U.S. Open in the late 1990s rekindled her interest. By 2000, she was touring full-time, competing in tennis tournaments across the U.S. and around the globe, from Australia, Asia and South Africa to Europe and South America.

Along the way, she learned a lot about life. "The better physical shape I'm in, the better I feel about myself. The better I feel about myself, the more I can give to others," she said.

Giving guides Beth's life since she retired from competitive tennis in 2008. She's grateful her trainer, Scott Sanchez, shared the gospel with her. "Romans 8:28 was life changing," she said, referring to "we know that in all things God works for the good of those who love him, who have been called according to his purpose."

When massive wildfires devastated Maui in 2023, Beth helped organize relief efforts. She's active in her non-denominational church and participated in a church mission trip to Egypt in 2025. She also hosts weekly Bible studies in her home and facilitates Financial Peace University, a biblically based course that teaches money management. In her free time, she enjoys Hawaiian canoe outrigger paddling.

No matter what challenges come her way, Beth is living proof that pressure is a privilege – and champions adapt. "If there's a will, there's a way," she said. "Figure it out, make it happen."
